

Brecken Grey 65mm

THE ORIGINAL
LONDON
BRICK
FORTERRA

The Brecken Grey London Brick embodies a subtle and understated aesthetic, making it a versatile choice for various architectural designs.

Its light grey hue provides a neutral palette that complements both contemporary and traditional structures. The brick's light texture adds a gentle tactile quality, introducing depth and interest to facades without overwhelming the overall design.

London Brick has been used to build over five million homes primarily in London and the Home Counties – an icon of the British landscape.
